About CAN Federation Morang

The Federation of Computer Associations of Nepal (CAN Federation) is the apex body representing the information technology (IT) and computer sectors in Nepal. Established in 1992, it is a non-profit organization that plays a crucial role in the development and promotion of IT in Nepal. CAN Federation serves as the primary platform for individuals, companies, and organizations involved in the IT sector to network, collaborate, and advance their collective interests.

Founded in 1992, it aims to promote the growth and development of Nepal's IT sector and foster cooperation among IT professionals, businesses, and government organizations. The organization plays a significant role in advancing the use of computer technology, software, and IT services in the country.

CAN Federation has a large membership base that includes IT professionals, businesses, hardware and software companies, and educational institutions. It offers different types of membership, such as individual, corporate, and institutional memberships, allowing a wide range of stakeholders to participate in its activities.
